Respectfully,

ROBERT E. RICH,

Librarian.

PORTSMOUTH, N. H., January 10, 1899.

To Auditor of the Trustees of Portsmouth Public Library:

I hereby certify that as holder of the escutcheon key to the safe deposit lock in First National Bank vault, I examined the box, the key to which is held by the treasurer of the Public Library, and found therein seven bonds of the City of Portsmouth 4 per cent. loan of \$1,000 each, belonging to the Invested fund account of the Portsmouth Public Library.

JOHN S. TILTON,

Mayor.

WATER COMMISSIONERS' REPORT.

To the City Councils of the City of Portsmouth:

The water commissioners beg leave to submit their eighth annual report, and state that the plant of the water works is in every way in excellent condition.

Economy with efficiency, has ever been the policy of the commissioners, and each year witnesses important extensions and improvements in the plant, effected by careful savings.

The commissioners, looking forward to the future needs of the city, and with a view to safeguarding the water supply, purchased the Haven Scott farm to secure control of its rights.

This farm practically surrounds the Haven pumping station, and the sum paid for it was three thousand dollars. No income has been derived from the farm as yet, and it would be good policy to sell the high and sandy portions of it, reserving all water rights, when an adequate and reliable offer is made. The low, swampy portions should be retained to insure the maintenance of the thick, protecting growth now existing upon it.

The stand pipe has been painted inside and out, and such repairs made as were necessary to put it in thorough condition.

The commissioners entered into a contract with Hon. Frank Jones for the purpose of furnishing water to the Wentworth house, when there was an excess above the city's needs. Mr. Jones furnished and laid an eight inch pipe from Spring street or Miller's avenue, down Sagamore and Little Harbor roads to the Portsmouth boundary line at tide water. The contract lasts ten years, and the

city can buy the pipe at the end of that time at cost price. The selling privileges on this pipe belong exclusively to the city, and in time will net quite an income.

The service has been extended in many parts of the city, the principal extensions being 636 feet of 8-inch pipe and 120 feet of 4-inch pipe on Middle road; 1500 feet of 6-inch pipe on Broad street; 250 feet of 6-inch pipe on Richards avenue; 325 feet of 2-inch pipe on South street; 139 feet of 2-inch pipe on Blossom street and 200 feet of 1-inch pipe on Marginal road.

Forty-six new services have been put in, and 522 feet of old services relaid.

Ten new hydrants have been set.

The amount of water pumped during the year was 421,951,491 gallons.

Each year the board has suggested that the city pay a fair annual rental for fire hydrant service, to establish a sinking fund for eventually paying off the bonded indebtedness, and again renews its suggestion.

The total indebtedness of the water works remains as before, \$325,000, bearing interest at rate of 4 per cent.

FRANK J. PHILBRICK,

A. C. HEFFENGER,

JOHN S. RAND,

Water Commissioners.

RECEIPTS AND EXPENSES FOR THE YEAR 1898.

*Owing to the illness and death of Superintendent Ayers, the city treasurer's books were balanced and closed before the coal bill of the year was paid. This bill, amounting to \$2,880.60, will have to be carried over to next year's account.

CITY SOLICITOR'S REPORT.

To the City Council of the City of Portsmouth :

In accordance with Section 3, Chapter 6, of the compiled ordinances of the city, I submit the following report :

At the January term, 1898, the city was a party to the following actions :

Town of Newcastle vs. City of Portsmouth.

Margaret Loach, administratrix vs. City of Portsmouth.

The town of Newcastle case was finally disposed of at that term, and the report of the commissioners, which established the boundary line between Newcastle and this city so that Pest island should be included within the confines of Portsmouth, was confirmed by the court.

The Loach case was discontinued by Hon. Samuel W. Emery, council for the plaintiff, at the April term, 1898.

No other suits have been instituted against the city : so I am glad to report that the city, during the past year, has been entirely free from litigation. Furthermore, all claims presented against the city during the past year, that have been referred to me, have been disallowed, and the claimants have been given leave to withdraw.

The routine business of the office—such as the making of police warrants, and the drafting of papers for the city government and the various public officers of the city—has been performed, I trust, to the satisfaction of the city authorities.

I feel that I can do no less than my duty in closing this annual report, than to say that, in my opinion, the present quarters for holding police court are unsatisfactory, both in point of sanitation and in the convenience necessary for a proper administration of justice. If the probate court room in the county court house, or some other equally satisfactory place could be procured, I believe the interests of justice would better be served, and the police authorities, the prosecuting attorney, the justice of the police court and witnesses have those facilities for the performance of their duties, as in reason they should have.

Respectfully submitted,

JOHN W. KELLEY, *City Solicitor.*

ANNUAL REPORT
OF THE
FIRE DEPARTMENT
TO THE
CITY COUNCIL

FOR THE YEAR ENDING DECEMBER, 31, 1898.

PORTSMOUTH, N. H.

CHIEF ENGINEER'S REPORT.

To the Honorable Board of Mayor and Aldermen :

GENTLEMEN: I herewith respectfully present to you my annual report of the condition and workings of the Portsmouth Fire department for the past year. For the betterment and efficiency I desire to make such recommendations and suggestions as I may deem essential, and which I trust will meet with your commendation.

FIRE ALARMS.

The department has responded to 16 regular alarms, one being a double alarm from box 58, on May third, for the Pickering block fire, eight still alarms and two militia calls.

ORGANIZATION.

The department at the present time consists of men as follows : Permanent force, six ; one chief, four assistants, one clerk, one superintendent of fire alarm telegraph, four engineers, three stokers, six drivers, sixty-seven hose and ladder men. I feel safe to say, with the present force and one quick-hitch arrangement, (which every fair minded tax payer will say has been a very successful improvement and should never be done away with,) together with our hydrant service, we shall be able to cope with any fire which may occur. I would again recommend the appointment of an extra man at the central fire station for allowing the drivers regular meal hours, and having three drivers in the

station at all times. By giving us an extra man, some arrangements could be made whereby the drivers might be granted some time off from duty, as the present arrangements of things compels them to remain on duty the whole twenty-four hours every day.

HOSE.

We have in service at the present time 10,000 feet of 2 1-2 inch cotton hose, rubber lined, in good condition. I would recommend the purchase of 1,000 feet of 2 1-2 inch cotton hose the coming year, to keep the supply ample for any emergency that may arise; also to replace the hose that must be condemned, there being now something like 1,000 feet.

ENGINE HOUSES.

I have nothing to suggest or recommend for the central engine house, everything there being in excellent shape, and working perfectly. The Hanover street house, occupied by the M. H. Goodrich, No. 4, and the Chemical, will need a great deal of work done to it the coming year. The sills will have to be replaced by new ones, and a general overhauling must be made to the building to keep it suitable for the purpose it is used for. The house occupied by the Col. Sise, No. 2, on Court street, should have some changes made the coming year. The building is very damp, which makes it very injurious for the apparatus. This house should receive your earliest consideration.

WATER SUPPLY.

There have been added during the year ten new hydrants, making the total number in this city 164. The reservoirs are in good condition, and always supplied with water.

EXPENDITURES.

The expenditures for the year amounted to \$13,428.27; amount appropriated, \$13,500.00.

HORSES.

The department owns nine horses, seven of them being in active service. The other two are loaned to the street department, but always subject to the call of the chief engineer in cases of emergency.

FIRE ALARM TELEGRAPH.

This branch (the most vital one) of the service, I am happy to say, is at the present time in first-class working order. One new box, No. 84, has been added during the year. I would again recommend that a box be placed at the corner of Bridge and Hanover streets and another at the central fire station on Court street.

CONCLUSION.

In conclusion, I extend to your honorable body my sincere thanks for the many courtesies shown me by you while in the discharge of my duties. Your willingness at all times to aid us by furnishing such needed improvements as the organization of the department has demanded from time to time has been very gratifying to me, and should be appreciated by all citizens interested in the welfare of our department.

Yours respectfully,

JOHN D. RANDALL,

Chief Engineer.

Inventory of Articles in Charge of the Sagamore S. F. Engine Company, No. 1.

ENGINE.—Built by the Amoskeag Manufacturing Company of Manchester, N. H.,—1 hammer, 1 screw-driver, 1 monkey-wrench, 4 fork wrenches, 1 swivel coupling, 2 lanterns, 2 pipes, 1 oil can, 2 fire buckets, 3 pieces of suction (1 piece 8 feet, 2 pieces 10 feet), strainer and bucket, 1 shovel, 1 poker, 1 hoe, 1 slice bar, 2 pieces of rubber hose (8 and 10 feet), 1 rubber coat, 1 screw-jack, 15 feet of 3-4 rope, 1 reducing coupling, 1 piece of small canvas hose for steamer connection, also 1 piece of small canvas suction for hydrant connection.

SUPPLY JUMPER.—500 feet of linen hose, 2 play pipes, 2 wrenches, 2 hose patches, 3 spanners, 1 spanner belt, 3 lanterns, 2 cranks, 2 wheel wrenches.

Inventory of Articles in Charge of Col. Sise S. F. Engine Company, No. 2.

ENGINE.—Built by the Amoskeag Manufacturing Company of Manchester, N. H.,—50 feet rubber hose, 1 piece of suction feed hose, 2 rubber coats, 3 pieces of suction, 2 lanterns, 2 play pipes, 1 strainer and bucket, 2 fire buckets, 1 whip, 3 monkey-wrenches, 2 hammers, 2 screw-drivers 11 miscellaneous wrenches, 3 coal chisels, 2 oil cans, strainer for suction, 1 hand torch, 1 axe, 1 shovel, 1 crowbar, 1 slice-bar, 1 hoe, 1 screw-jack, 1 reducing coupling, 1 mallet, 5 spanners, 1 suction rope, 16 leather straps, 1 saddle, 1 cushion, 21 valves, 3 blankets, 1 file, 1 pair lead bars, 1 coal shovel, 3 snow shovels, 4 brooms, 1 roll board, 1 ash pan, 2 rubber suits, 2 step ladders, 1 wheel-jack, 1 coffee boiler, 1 milk can, 6 dippers, buckets, 1 torch, 1 double she coupling, 1 vise, 1 duster, 2 wash basins, 1 watering pot, 1 coal hod, 1 large stove and funnel, 1 piece of canvas hose for steamer connection to hydrant (small), also 1 piece of canvas suction for hydrant connection (large), 3 pieces of rubber suction hose.

HOSE WAGON.—Built by the Abbott-Downing Company of Concord, N. H.,—1,600 feet of linen hose, 6 play pipes, 32 coat straps, 3 lanterns, 1 torch, 5 nozzles, 1 double coupling, 14 rubber coats, 1 respirator, 10 army coats, 3 hydrant wrenches, 5 pair rubber boots, 8 ladder straps, 4 spanner straps, 7 spanners, 1 canvas covering, 1 crowbar, 1 plaster hook, 24 fire hats, 1 axe, 1 cushion, 100 feet of hose, 1 long piece of 3-4 rope, 2 tin boilers, 1 spare gas stove and rubber pipe, 1 kerosene lamp, 1 clock, 1 tapper, 1 automatic switch, 5 frames, 1 board, list of boxes, 1 Underwriters' fire extinguisher, 1 Cooper hose jacket.

Inventory of Articles in charge of the M. H. Goodrich S. F. Engine Company, No. 4.

ENGINE.—Built by S. S. Nichols & Co., of Burlington-

Vt., 40 feet of rubber hose, 3 oil cans, 2 rubber coats, 1 reducing coupling, 1 shovel, 1 hoe, 1 poker, 2 army coats, 2 pieces of suction, 2 fire buckets, 4 lanterns, 2 pipes, 1 metal torch, 1 swivel coupling, 2 spanners, 1 hydrant wrench, 1 suction spanner, 5 chisels, 1 hammer, 1 file, 2 screw-drivers, 3 wrenches, 1 large monkey-wrench, 1 small monkey-wrench, 1 Stilson wrench, 1 packing hook, 3 wheel wrenches, 2 3-gallon oil cans, 1 snow shovel, 1 broom, 1 brush broom, 1 jack, 1 nozzle, 1 vise, slice bar, 2 pairs of steps, 1 bucket, 1 canvas, 1 strainer, 2 roll boards, 2 dusters, 1 piece of soft canvas suction for hydrant connections (small), also 1 piece of canvas suction for hydrant connection (large).

HOSE WAGON.—Built by Talbot & Moulton of Portland, Me.,—1,200 feet of linen hose, 4 play pipes, 1 pair of shafts, 1 pole rest, 6 lanterns, 14 rubber coats, 2 rubber suits, 5 army coats, 3 hydrant wrenches, 1 Siamese coupling, 3-way coupling, 1 respirator, 1 saw, 1 set of runners, 2-way coupling, 11 nozzles, 1 axe, 2 patches, 1 canvas bag, 9 spanner belts, 31 spanners, 4 ladder straps, 22 fire hats, 1 piece 3-4 rope, 1 Underwriters' fire extinguisher, 1 Cooper hose jacket.

Inventory of Articles in Charge of the Chemical Engine No. 5.

ENGINE. Built by Holloway of Baltimore, Md., 2 pairs swinging harness, 4 blankets, 2 axes, 200 feet of rubber hose, 2 rubber coats, 2 lanterns, 2 pairs rubber boots, 1 extension ladder, 1 pair runners with cradles, 2 nozzles, 4 respirators, 2 fire hats, 1 Pony extinguisher, 2 tunnels, 2 big soda cans, 2 small soda cans, 2 vitriol bottles, 1 hydrant wrench, 1 mallet, 1 monkey-wrench, 1 short piece hydrant hose, 1 large soda box, 1 whip, 2 wheel wrenches, 1 kerosene can, 2 vitriol pitchers, 1 piece of rubber hose and noz-

zle, 1 mop, 3 small hydrant wrenches, 1 step ladder, 3 ash pans, 1 furnace, 1 iron rake, 1 iron shaker, 1 iron poker, 1 tube cleaner, 1 stove, 1 sliding pole and cushion, 1 switch board, 1 automatic switch, 1 indicator, 2 frames containing rules and regulations, 36 yards hemp carpeting, 1 pair harness hangers, 1 hook, 3 spanners, 2 extra collars, about 200 pounds of soda, 1 carboy of vitriol, 1 wrench, 2 snow shovels.

STABLE.—1 pair horses, 1 pair bridles, 2 hoes, 2 pitchforks, 2 rakes, 2 shovels, 2 brooms, 2 curry combs, 2 brushes, 1 mane brush, 1 scraper, 1 mane comb, 5 window screens, 1 door screen, 2 snow shovels, 2 surcingles, 1 pair stall doors, 2 stall pans, 1 watering trough, 1 grain chest, 2 cribs, about two tons hay, about 200 lbs. straw.

Inventory of Property in Charge of the Fire-Alarm Telegraph.

One 4-circuit repeater, 4 galvanometers, 1 switchboard, 4 plug switches, 3 electric light protectors, 110 1-gallon jars battery, 34 zincs, 5 pounds covered wire, 100 pounds blue vitriol, 25 pins, 24 brackets, 1 stand for jars, 1 chest, 1 gas stove, 1 repeater case, 31 fire-alarm boxes, 1 No. 2 bell striker, 1 No. 2 automatic whistle machine, 1 steam gong complete, 3 indicators, 4 tappers, about 15 feet of wire, 20 glass insulators, 1 piece rubber hose and pipe, 1 thermometer.

Inventory of property in Charge of Engineers' Room.

One desk, 1 table, 6 chairs, 1 carpet, 1 hat rack, 2 spittoons, 5 pictures, 2 frames, 27 keys for fire-alarm boxes, a lot of stationery, etc.

Inventory of Property in charge of J. A. and A. W. Walker.

One 4-wheel hose wagon, 400 feet of cotton hose,
1 play pipe.

Inventory of Property in charge of Piscataqua Hand Tub.

Three hundred feet of cotton hose, 2 1-2 inch.

RESERVOIRS.

Location.	Gallons.
One on Market square, brick,	20,000
One on School street, brick,	18,000
One on Pleasant street, brick,	15,000
One on Austin street, brick,	12,000
One on Haymarket square, brick,	30,000
One on Hanover street (engine house yard), brick,	63,000
One on Boston & Maine railroad, brick,	37,000
One on Union street (connected with Mad- ison st.), wood,	8,000
One on Madison street, stone,	450 00
*One on corner Lincoln and Richards ave- nues, stone,	70,000
One on Dover street.	
One salt water reservoir, Vaughan street,	
One salt water reservoir, Atkinson street.	

The reservoirs on Market square, School street, Pleasant street, Austin street, and Haymarket square are connected with the water-main, so that we have an inexhaustible supply of water at all times.

*Condemned.

LIST OF LOCATION OF HYDRANTS.

*Signifies Steamer connections; †Four-way Hydrant.

- Albany street, opposite Jones' cooper shop.
 Austin street, opposite Winter street.

PORTSMOUTH FIRE ALARM TELEGRAPH.

A Correct List of Boxes and Keys, their Location, and General Instructions, Issued August, 1898.

ALARMS.

All alarms will be sounded from the North Church bell, the steam gong at Electric Light station, also the whistle at Eldredge's brewery, and repeated three times.

SCHOOL SIGNALS.

Two blows repeated three times at 7:45 dismisses all schools ; 8:30 dismisses first four grades ; 11:30 prolongs session till one o'clock ; 1:30 dismisses all schools.

NAVY YARD SIGNALS.

In case assistance is needed from the Navy Yard, six whistles will be blown from the Electric Light station, and repeated twice.

When assistance is needed at the Navy Yard, the signal by day will be two guns from the battery ; by night two guns from the battery and two rockets. One gun is a signal for Kittery.

LOCATION OF SIGNAL BOXES AND KEYS.

Box 5. Cor. Dennett and Thornton streets. Keys at F. H. Greenough's, 45 Dennett street, W. Hunter's, cor. Dennett and Thornton streets, Byron Dame, 48 Dennett street.

Box 7. Corner Dennett street and Maplewood avenue. Keys at P. E. Woods', 39 Maplewood avenue, Solomon Seymour's, 6 Dennett street, John Milton's store and Geo. R. Palfrey's store, Maplewood avenue.

Box 8. Police station. [For assistance out of town.] Key with Chief Engineer.

Box 9. Cor. Deer and Vaughan streets. Keys at Boston & Maine Railroad station, N. A. Walcott's store, Moses Leighton's, 36 Vaughan street, R. H. Hall's, 31 Vaughan street.

Box 14. Cor. Market and Russell streets. Keys at Mrs. B. Moore's, 23 Russell street, J. A. & A. W. Walker's office, night watchman at Concord Railroad wharf, W. H. Staples' store, Market street.

Also, keys will be found in the hands of the engineers, and the regular police.

DIRECTIONS.

Alarms are to be given from the box nearest the fire.

The key cannot be taken from the box except by an engineer.

Never open the box or touch the apparatus except in case of fire.

One blow will be struck from a different box each day at 8:30 a. m.

Open the box and pull the hook all the way down once and let go.

Second alarm for same fire will be given only by one of the engineers.

All citizens are requested to inform themselves where the keys to the boxes are kept.

Cambridge time will be struck each day at 12:30 p. m. One stroke at any other time means nothing.

The companies will respond to alarms of fire given from boxes according to orders given by the chief engineer.

If you remove from your house or place or business, return the key to any member of the board of engineers.

After giving the alarm, remain by the box, if possible, so as to direct the firemen to the exact locality of the fire.

Never sound the alarm for a fire seen at a distance; be reasonably sure that there is a fire before sounding the alarm.

Never let the key go out of your possession, except to

some responsible person, to give an alarm of fire ; and be sure the key is returned.

When an alarm of fire is given, all companies not responding will remain at their respective houses thirty minutes, unless discharged by telegraph signal, which is as follows : Three blows signify that the fire is under control, and companies not in attendance will be dismissed.

CHIMNEY FIRES, ETC.

In case a fire is in a chimney, or is one that in the judgment of the discoverer may easily be extinguished without the aid of the entire fire department, the chemical engine may be promptly summoned by a message to the chemical house from one of the following telephone stations :

- Chief Engineer's house.
- Central Fire station, Court street.
- Police station.
- Eastern Railroad Telegraph office.
- Eldredge's Brewery office, Bow street.
- Frank Jones' farm.
- Frank Jones Brewing Co., Islington street.
- Morley Button Machine Co., Islington street.
- Portsmouth Machine Co., Hill street.
- Portsmouth Shoe Co., Islington street.
- James M. Salter, Water street.
- A. H. Stacey, Madison street.
- C. E. Walker, Water street.
- J. A. & A. W. Walker, Market street.
- H. A. Yeaton & Son, Bridge street.
- H. W. Waldron, Wibird street.
- John Grant, Woodbury avenue.
- Thomas Entwistle, Cabot street.
- Cottage hospital.
- Electric Light station, Bow street.
- Richard E. Hannaford, Florist, Newcastle avenue.

SPECIAL CALLS ON FIRE ALARM.

When more apparatus is wanted without giving a second or third alarm, the following special calls will be given :

- 2-1-1 for engine, No. 1.
- 2-2-2 for Engine No. 2.
- 2-4-4 for Engine No. 4.
- 2-1 for Truck No. 1.
- 2-2 for Hose No. 2.
- 2-4 for Hose No. 4.

ALARM FROM ANOTHER BOX.

After an alarm is given, and before the department is dismissed, should an alarm be given from another box, all unemployed companies will respond.

RULES FOR EXERCISING HORSES.

It shall be the duty of the drivers of Engine Three, Hose Three, Chemical Engine, and Hook and Ladder Truck, to exercise the horses every day, weather permitting, except Sunday, the same to be done within the following limits :

CENTRAL STATION.—North to State street, east to Water street, South to South Mill bridge, West to Union street.

HANOVER STREET STATION.—North to North Mill bridge, East to Market street, South to Hanover street, West to Dover street.

Drivers must confine themselves to the above, and in no case take their horses beyond the prescribed limits, except for shoeing and in case of fire, without permission from the Chief or an Assistant engineer.

In exercising, care must be taken to avoid colliding with other teams. In approaching corners, crossings, street car tracks, and in going down grade, the speed of the horses must be checked.

Any driver violating these rules will be liable to suspension or discharge.

LIST OF ALARMS FROM JAN. 1, 1898, TO JAN. 1, 1899.

January 15. Box 78, at 10:50 a. m. Fire in dwelling house on Spinney road, owned by George Peirce, and occupied by Peirce and Albert Gove. Value of building, \$300; total loss, no insurance; value of contents, \$300 total loss, no insurance.

February 5. Still alarm, 5:50 p. m. Building occupied by Times Pub. Co.

February 7. Box 78, at 1:30 p. m. Fire in dwelling house No. 115 Islington street, owned by Harry J. Freeman and occupied by Harry J. Freeman and Mrs. Joseph B. Freeman; value of building, \$3000; damage to building, \$20; insurance on building, \$1750; insurance paid, \$20; value of contents, \$800; damage, \$30; insurance on contents, \$500; insurance paid, \$30; cause, fumigating house in tenement occupied by Mrs. Freeman.

March 26. Box 39, at 7:25 p. m. Fire in dwelling house No. 29 Clinton street, owned and occupied by Dennis Kelley; value of building, \$800; damage to building, \$250; insurance on building, \$400; insurance paid, \$250; value of contents, \$350; damage to contents, \$200; insurance paid, \$200; cause, defective flue.

April 14. Box 46, at 4:14 p. m. Fire in dwelling house on Langdon street, owned by John Galloway; value of building, \$900; damage, \$46.75; insurance on building, \$700; insurance paid, \$46.75; cause, boiling over of tar used by workmen.

April 23. Eight o'clock p. m., militia call.

May 3. Box 58, at 1:05 a. m., followed by second alarm, 10 minutes later. Fire in brick block corner Market and Daniel streets, John J. Pickering, agent, and occupied by J. H. Hutchinson & Co., jewelers, C. F. Duncan, shoe store, E. L. Guptill, law office, E. H. Adams, law office, E. C. Blaisdell, dentist, Benj. Cheever, M. D., and the

Warwick club. Value of building, \$20,000 ; damage, \$2430 ; insurance, \$10,000 ; insurance paid, \$2430 ; value of contents, Hutchinson & Co., \$8500 ; damage, \$295.93 ; insurance, \$5500 ; insurance paid, \$295.93 ; C. F. Duncan, \$9000 ; damage, \$606.42 ; insurance, \$6500 ; insurance paid, \$606.42 ; E. L. Guptill, \$800 ; damage, \$286.25 ; insurance, \$500 ; insurance paid, \$286.25 ; Benj. Cheever, \$950 ; damage \$50 ; insurance, \$500 ; insurance paid, \$50 ; Warwick club, \$3000 ; damage, \$245.67 ; insurance, \$1500 ; insurance paid, \$245.67. REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the Board of Instruction, Portsmouth, N. H. :

GENTLEMEN : I have the honor to present my seventh annual report as superintendent of the schools of Portsmouth. The report is the thirteenth in the series of annual reports from this office.

Many of our plans, during the past year, have been brought to fruition, but certain others still remain unfulfilled. First among these latter is the introduction of some form of manual training. The educational advantage of such a step has been so fully argued in previous reports that much repetition seems hardly necessary.

We have come to recognize that while the traditional school curriculum may offer to a good many children precisely the opportunity needed for their development, there are certain others, neither stupid, lazy, nor slow, as we have been wont to call them, who have extracted but little of pleasure or profit from their school life. Too often the success in after life of the school dunce who has won in spite of the waste of his school training, has given the challenge to the sufficiency of our school program ; too often, I fear, the same lesson might be taken from the failures to gain foothold in life's struggle because of the insufficient preparation of a poorly adapted course, were the latter as sharply and persistently forced upon our attention. This justification there has always been to me of the attempt to broaden and enrich the school curriculum, not that it might afford increased opportunity to those whose needs are being already met, but that it may grant to those schol-

ars now feeding on the dry husks something that may strengthen and fit them for their future.

Sewing, by the aid of the funds of a charitable society, we have long had in a somewhat limited form. It seems that with comparatively small expense we might extend this instruction through the grammar grades for the girls, and complement it for the boys by the introduction of some of the simple forms of wood working. We have room available in the Peabody school, whose central situation renders it easy of access from all parts of the city. The cost of the necessary benches and tools would not be large. The various schools for the training of teachers for this special form of work are sending out graduates in such numbers that the question of expert instruction might easily be solved.

By legislative enactment in Massachusetts all cities of more than twenty thousand inhabitants must furnish instruction of this character. Manchester and Concord in our own state have made this addition to their school system so long since that it has well passed the experimental stage.

It seems to me that the next radical move that we make may well be along this line and I commend the matter to your serious and careful attention.

SCHOLARS.

The close of the year 1898 found 1,432 scholars enrolled in the public schools of Portsmouth. By grades these were distributed as follows:

High	{	Graduate Students	7
		XIII	41
		XII	42
		XI	48
		X	92

Grammar	{	IX	72
		VIII	89
		VII	88
		VI	117
		V	90
Primary	{	IV	118
		III	135
		II	141
		I	177
Kindergarten			175

The largest school had an enrollment of fifty-two, the third grade in the Whipple school. The smallest was the first grade of twenty-eight scholars at the Farragut school.

Six schools had two grades in a room ; three, more than two, and the remainder one grade in each room. Exclusive of the High School, there were thirty-four rooms in use.

It is a question over which we may well pause, whether, now that all children enter our schools through the doorway of the Kindergarten, we might not with advantage reduce the number of grades from nine to eight. The question, as it appears to me, is one of convenience rather than one of basal educational importance. There is no special virtue nor sacredness in either nine or eight divisions of the school course. In fact, a great many of our educational ideas have rested, to my way of thinking, upon the educational fallacy that the only difference in the relation of children to the school course was in the time it took each to complete it. We have assumed that what a scholar could not get in half a year he might in a whole year or in two years, and on this theory have built up very elaborate and artificial plans of grading and promotion that are really worth nothing. There is a time element in the child's development and his apprehension of the curriculum. The mistake has been in magnifying and distorting this element to a position of unnatural greatness. Experience has

shown that a whole year of our traditional course may easily be passed without previous preparation or subsequent special repair and the gap so readily healed in a very short time as to escape expert detection. There are periods of rapid mental growth, as of physical ; there are, on the other hand, periods when the development is almost stationary. We need to recognize this fact and provide opportunity for expansion, when it must come.

All our schools in rooms and numbers lend themselves readily to the eight year plan except the Whipple, and the difficulties there are not insuperable.

Truancy has been in the main well and effectually cared for. The problem of school attendance has never with us, owing to the character of our industries and our population, assumed the importance that it has in some other cities.

We, like the rest of the state, are hampered by lack of an institution of a purely parental character, where children whose home influences are utterly bad could be sent while there was yet some hope of making an impression on them. Our truant officers now hesitate to set on foot prosecutions, and our court to enforce sentence, because of the nature of our Reform School. The very remoteness of this possibility removes its terror from the juvenile offender, and too often when he is committed the day of grace is past and a criminal career is entered upon.

An institution of a purely parental order would be of great assistance.

We have continued the transportation of the children from the Plains district to the Whipple school. A petition was presented in September for the re-opening of the school, but was afterward withdrawn.

The number of children in this section has increased rapidly, there are now many quite young, and the advan-

tages are not all in favor of either plan. The question is likely to come before you again for final settlement.

TEACHERS.

Following are the changes in the corps of teachers for the year past :

RESIGNATIONS.

Margaret J. Patterson, Drawing, April.
 John H. Bartlett, High, June.
 Bertha B. Smith, High, June.
 Ella M. Seavey, Whipple, June.
 Myra M. Sweetser, Farragut, September.
 Lindley G. Palmer, High, December.

APPOINTMENTS.

May G. Averitt, High, July.
 Lindley G. Palmer, High, July.
 Lucy C. Bedlow, Drawing, July.
 Bertha A. Colburn, Cabot, July.
 Anna G. Abbott, Haven, August.
 Martha E. Tredick, Cabot, August.
 W. J. Lewis, High, September.
 Ada D. Andrews, Farragut, September.
 George A. Swertfager, High, December.

TRANSFERS.

Carrie W. Knox, Haven to Franklin.
 Josephine W. Page, Franklin to Farragut.
 Anna G. Rand, Cabot to Spalding.
 Edith G. Brewster, Haven to Farragut.
 Emma F. Riley, Haven to Farragut.

ADMITTED TO THE TRAINING SCHOOL.

Aurelia Jones, February.
 Marion Taylor, February.
 Minnie Woods, February.

Outside the High school, the force of teachers has suffered but little change. Miss Patterson resigned to accept a position as assistant supervisor of drawing in Boston, and Miss Seavey to take charge of a school in Springfield, Mass.

In February a somewhat radical change was made in the conduct of the Training school. The compensation before paid the pupil teachers was abolished and with this money an additional teacher was employed.

This action was taken in the interests of the children in the grades of this school, whose orderly progress was being somewhat hampered by too much untrained instruction.

In this way an opportunity will be offered for the improvement of the Normal side of the school and a better systematization of its courses.

In addition to the regular grade and general meetings of the teachers, there have been conducted classes in various subjects purely voluntary. The most important of these was a class in Psychology, meeting throughout the winter and spring terms. Its main purpose was looking toward the State Examination, although opportunity was taken by many teachers to review and refresh their previous acquaintance with the subject.

A course in Botany was also under the charge of the Superintendent, while Algebra, Geography and Drawing were cared for by the Principals and Supervisor. It might be noted that those teachers undertaking the State Examination, passed without exception and with distinction.

The present winter our Teachers' Association meets every two weeks for the study and discussion of pedagogical questions.

A day in November was observed as a general visiting day under the following plan: At a meeting of the teachers a common subject for investigation and comparison was

chosen. Each teacher made, with the Superintendent, record of the city where she proposed to visit. Correspondence with superintendents and teachers in those places elicited in what schools the chosen subject could be seen to most advantage. At a series of meetings held subsequently to the visiting day each teacher made report of her observations upon the common subject and upon such other matters as she chose to bring forward for discussion.

In stimulation and in practical effect, the day was probably the most profitable to the schools of the whole year.

SCHOOL HOUSES.

It is with pleasure that I am able to report that a great deal in the way of necessary repairs has been accomplished during the last year. The simple maintenance in the condition essential to preservation of a number of large buildings means no small expense and concern, and I wish to acknowledge the promptness and good judgment of the aldermanic committee on schoolhouses in their relations with this department.

Besides the ordinary repairs which though small by single items make a considerable aggregate, the following are some of the principal matters that have received attention :

The new sanitariums in the Whipple and Farragut schools, displacing the dry closet system, have been finished. While an improvement in many ways, it is evident that in certain respects the more careful formulation of plans and the benefit of expert advice would have produced more satisfactory results without increased expenditure.

Opportunity was taken during the summer vacation to redress the walls and ceilings of the Whipple and Farragut schools and to give the woodwork and desks a much needed coat of varnish. The folly of delay in the care of wood-

work was fully demonstrated by the extra expense of scraping the surface of many of the desks where the original coating had worn through. It will be well to remember that desks must be varnished every two years to be kept in proper condition.

At the Haven the walks and approaches were laid with concrete with much advantage to the appearance and convenience of the building. The Farragut building has long needed similar action and in this case a relay and straightening of sidewalk should be made on High street from Hanover to Deer. The Spalding school was painted and fitted with new seats, and the room formerly used as a ward-room was promptly placed at the disposal of the Board of Instruction for Kindergarten purposes. A much needed room for like use at the Farragut school was obtained by throwing into one room the room formerly occupied as the office of the superintendent of schools, a portion of the hallway and a portion of one of the adjoining school-rooms. This secures an excellent room that is heated from the present furnaces without extra expense.

Following are some of the needs of the year to come: Furnaces of simple construction should be placed in the Farragut and Whipple schools as hall heaters. At present, on a cold day each room presents an exposure of four sides for radiation. No opportunity is given in these buildings of warming or drying the children's feet. I am convinced that an expenditure for this purpose would be both beneficial and economical.

Some of the ceilings at the Haven school have become loosened and need replacing, and the interior of the whole building should then be renewed. The basement of the High school should be concreted and whitened in the interests of sanitation and appearance. The Lafayette school-house needs painting, and if the Plains school is re-opened

that building must be put in proper condition. Our buildings generally are in good condition and are well kept. I add herewith as matter of possible interest the cost of heating each of the four largest buildings for several years past.

COST OF HEATING SCHOOLHOUSES FOR FOUR YEARS.

	1895	1896	1897	1898	Average
Farragut	\$428.72	\$440.25	\$543.04	\$509.01	\$480.26
Whipple	428.35	390.58	497.85	414.17	432.74
Haven	439.82	341.52	495.50	476.07	438.23
High	243.80	198.48	342.93	287.00	268.05

PENMANSHIP.

At the beginning of the school year it was decided to continue the experiment of vertical penmanship, begun in the preceeding year, and to extend its use one grade higher. For the present year the first five grades are taking the vertical hand under the instruction of the regular teachers, while the upper four grades pursue the slant system under the supervision of Mr. Montgomery.

It seems to be proved beyond a doubt that our expectations in making the change have been fulfilled. The children in these grades write legibly and with sufficient speed. The teachers find that the greater simplicity renders their task far more easy and readily within the scope of their management. In the sixth grade a proportion of the pupils, who under the plan of double promotion came from the fourth grade, are allowed to continue the vertical. This, of course, produces an awkward condition and an unpleasant lack of uniformity. For this and other reasons I recommend that at the beginning of another school year the vertical system be extended to all grades below the High school. The only objection of apparent weight that has ever been urged against such a course is the notion that in the upper grades the slant system, pursued for a

number of years, has become fixed and that a change would result in confusion. Now, experience has proved that it is in those very grades that the individuality of the scholar begins to show itself in the matter of handwriting, that under the pressure of that expression seeking individuality, any system as such must break down, and that all we can legitimately expect of our instruction up to that point, in fact all that we want, is a comprehension of words that runs through all handwriting ability. We have found, too, that this matter of handwriting does not cease to be plastic and formative and does not take on the rigidity of maturity till well into the High school years. Under this view a change of system, as proposed, ceases to be the serious thing that it appears at first thought. It will give us whatever advantage may accrue from a complete system and will probably settle a question that for some time past has vexed us.

KINDERGARTENS.

In January 1895 the superintendent of schools was authorized to establish in an unused room of the Haven school an experimental kindergarten for the remainder of the school year. In the following September this school was continued and upon petition of residents of the West End another was opened in the Cabot street school.

These schools were maintained as an appendage rather than as an integral part of the school system till June of the present year, when a movement to afford more nearly equal privileges to all parts of the city resulted in the following action: Additional schools were opened in the Faragut and Spalding schools and children of kindergarten age from the Franklin primary district, the only one now left without a kindergarten, were admitted to either of the two last named, as might be more convenient.

The age of admission was fixed at four years and at the

same time the age of transference or admission to the primary school was placed at five years and eight months. Admissions to the kindergarten schools may be made in September and April, while new classes in the primary school are to be formed in September only.

Under the former arrangement, admissions were made to the primary schools in September, January and April. Thus, the Kindergartens take a certain former function of our first grade schools, namely: collecting and gathering into classes those who enter at different times of the year, and to a considerable extent their expense is met by the decrease in the number of teachers in the first grade made possible in this way. It appeared that for the present year, at least, this saving added to the amount already spent on kindergartens maintained as an extra would fully meet the cost of the extended system. We now have engaged in kindergarten work six teachers. Of these Miss Bertha Colburn, because of longer training and experience, was chosen at an increased salary to assume in addition to the charge of the Cabot street Kindergarten, a directory oversight of the other schools with a view to keeping the work uniform and progressive in the different schools.

The present time calls for no defense or explanation of the Kindergarten aim and purpose. It seems that our purpose of making this work an integral part of our school system has largely been accomplished and the result accepted with satisfaction on the part of the general public. Constant and successful effort has been made on the part of the teachers to establish relations with the parents—both by calls at the homes and by meetings at the school rooms. The response has been most pleasing and the interest shown highly gratifying.

Of course, many minor and internal adjustments yet remain to be made. First among these is an exact under-

standing and a more complete correlation of the relations of the Kindergarten and the Primary school. What each has rightfully to expect from the other, and what assistance may be mutually given, are matters upon which we soon hope to reach a common agreement.

In conclusion allow me to express my appreciation of the cordial support afforded all my plans and the generous latitude allowed in their execution.

Respectfully submitted,

J. C. SIMPSON,

Superintendent of Schools.

Portsmouth, N. H. Dec. 31, 1898.

HIGH SCHOOL REPORT.

To the High School Committee, Portsmouth, N. H.

GENTLEMEN: The following are the statistics for the year 1897-98:

Whole number enrolled	199
Average number belonging	182
Average daily attendance	172
Per cent. of attendance	95
Number not absent	45
Instances of tardiness	118
Whole number enrolled Sept. 1898	230

At the close of the school year in June, the committee received the resignation of Mr. John H. Bartlett, for two years past the efficient principal of the school. The committee at once elected to the vacant position Mr. Robert M. Brown, for four years submaster in this school. At the same time the resignation of Miss Bertha M. Smith, teacher of French, was received.

Later in the summer, Lindley G. Palmer was chosen to the vacant submastership and May G. Averitt as teacher of French and German.

The important event of the year was the maturing of the plans for an extension of the English course to include the electives of two years' book keeping and two years' instruction in stenography and typewriting.

W. J. Lewis, who had proved his competency by instruction in the same subjects in another school in this city, was placed in charge of this department. The large enrollment in these branches, in spite of the fact that the

announcement was made so late in the summer, is sufficient proof that the course is meeting a popular demand.

There has been added to the opportunities offered another year each in German and French. There are certain problems in relation to the Elementary Science yet to be worked out. Our High School is large in proportion to our population. The school is the second largest in the state, while the city ranks but fifth in point of population. This, of course, means a relatively large expense, for High school instruction is costly, but I am sure that whatever the feeling is elsewhere the citizens of Portsmouth do not propose to abandon the proposition that every child that wants it shall have the advantages of as good a High school education as circumstances will allow.

I invite your attention to a report of the Principal of the school submitted herewith, in which may be found much detailed information. The usual statistics of graduation and terms of entrance are also appended.

To Mr. J. C. Simpson, Superintendent of Schools:

I beg leave to submit the following as the High school report for the year 1898:

At the beginning of the present school year, radical changes were made in the course of study. The curriculum comprises three courses, as formerly, but what has heretofore been known as the English course is now included in the general course. This course offers a great latitude of choice to those who do not elect the Classical or Latin courses.

In obedience to popular demand and in accordance with the spirit of advanced educational reform, there has been incorporated in the general course a Commercial department of such a nature that a pupil may now obtain what is termed a business education. All of the entering class,

who did not elect Latin, are this year at work upon Book-keeping. In succeeding classes this condition will not necessarily be true. As an alternative with Book-keeping will be offered a course in Elementary Science. Stenography has been introduced in the third year of the course. As the course develops there will be two years of Book-keeping and two years of Stenography. In addition, Commercial Arithmetic, which has up to this time found a place in the first year, is transferred to the third year, and Political Economy and Civics follow naturally in the fourth year.

An advance has been made along the line of modern foreign languages by offering French as an elective to the Second Class, and German in the same way to the Junior Class. Such a change allows a pupil to obtain three years of French and two years of German. When this feature has established for itself a place in the curriculum—and this condition will be attained when the present Second Class reaches its fourth year—a further advance is suggested by offering four years of French and three years of German. It is a truth beyond question that a knowledge of a modern foreign language is more easily obtained in the earlier years of a pupil's work and, within the limits of the school years, almost inversely proportional to the age. The educational value of learning to speak the languages has been thrown into a doubtful position, yet in a three years' study a knowledge of construction should be gained, a vocabulary mastered so that the next step of assimilating the two, if properly and persistently followed, cannot fail in giving useful exercise to the mind. The reading in French and German required by the colleges absorbs so much of the time of a two years' course that but little time can be given to conversation. In a three or four years' course such an excuse cannot be offered and the mind

should be stimulated by a constant drill in conversation in order to give a practical knowledge of the idioms of the language.

Another improvement is contemplated in the science department by offering Elementary Science as an alternative with Book-keeping in the first year. It is not definitely decided along what line it is best to work. Our proximity to the sea and the possibility of obtaining specimens of simple marine life makes it imperative that we consider Biology as a proper science for introduction at this time. A course in Elementary Biology would follow naturally from the nature and science work of the lower grades. The great danger in a science of this nature is that it very easily degenerated into a system of classification of parts. The work should be entirely laboratory work and the pupil should be led towards independent and systematic observation. No other science can equal Biology in disciplinary value if properly taught. From the work of the first year the more specific branches of Zoology and Botany could develop and be offered as elective sciences in the second year.

Most colleges at the present time require Physics for admittance. Many demand that this work be done by the applicant within two years of the time of entrance to the college. This condition suggests a more preferable arrangement of the science work. The Elementary Science of the first year would be along the line of a purely inductive physical science. A more advanced course in Physics could be introduced in the senior year for those pupils in the Classical and Latin courses, who need it for entrance to college, and at the same time offered as an elective in the General course. This plan would not demand any more hours than are now given to the science in the second year. To successfully carry out this idea bet-

ter facilities for laboratory work are absolutely necessary.

In the number of pupils in the school there has been an increase of ten per cent. over the largest number in any year previous. To no one cause can this increase be accredited. The opening of a business course, the closing of a seminary in the city, and the attractions of a more liberal course to the pupils of neighboring towns, all have their share in the increased numbers of the school. What power the business course has in adding to the enrollment of the school cannot at this time be fully known, since it was formulated and put into practice only at the last moment, yet such encouragement has been given that we are warranted in expecting a corresponding increase at the beginning of another school year.

The present size of the school with the future promises opens many problems that must be met. We have this year reached the limit of our seating capacity. In the assurance of a larger school, provision should be made for its disposition. To meet this contingency desks can be placed in the two rear rooms of the first floor.

We are laboring under the disadvantage of eight teachers in seven rooms. Two classes reciting at the same time in one of the large rooms is distracting to both class and teacher, while the twenty or more pupils, who are forced to use the room as a study hall, must work under its discouraging effect. The dividing of the lower room has been suggested as a solution. In the absence of other plans this seems necessary.

The problem of ventilation, never satisfactorily solved in the building, now assumes greater proportions. The larger classes and overcrowded study halls demand some solution. The rooms are aired at present by an open window. In cold weather, we must choose between bad air or cold rooms. The alternate heating and cooling of the rooms

needs no argument to denounce it. The different rooms with different temperatures are a condition worthy of condemnation. The arrangement of our heating apparatus does not allow for ventilation by convection currents. A reconstruction of every room would be necessary in order to properly ventilate the building. With the other demands upon us it does not seem wise to go to the expense of remodeling. A building more adapted to our needs is the hope of the future.

The necessities of the Commercial department for rooms properly appointed, the lunch problem, so strong a factor in schools of a single session, the opportunities for physical growth which crowded conditions oppose, the library question, congested coat-rooms, and improper stairways, are additional arguments that demand the same conclusion.

Of the last graduating class two entered Harvard College, and one each of the following schools: Massachusetts Institute of Technology, Tufts College, N. H. College of Agriculture and the Mechanic Arts, Bates College, South Framingham Normal School, and Philadelphia Kindergarten Training School. Five of the class have returned to the school and are studying in special directions.

The school has received from the class of 1898 a photograph of the bust of the Hermes of Praxiteles. The remnant of the class fund, placed at the disposal of the Principal, has been expended for a case and a collection of minerals. This collection is the Washington collection, containing forty rocks and forty minerals together with thirty specimens of invertebrate animals.

Very respectfully,

ROBERT MARSHALL BROWN.

THE GRADUATING EXERCISES, CLASS OF '98.

Chorus, "The Lord is Great."	<i>Mendelssohn</i>
Climbing Heights,	Louis Lawrence Green.
The Wings of Thought,	Louise Paulina Metz.
Semi-Chorus, "Voices of the Woods."	<i>Rubinstein</i>
Spain in the Western Hemisphere,	Joseph Foster, Jr.
Song, "Nymphs and Fauns,"	<i>Bemberg</i>
Magdalene Florence Dondero.	
Presentation of the Class Gift,	Fred William Paterson.
The Acceptance,	Chairman of High School Committee.
Chorus, "The Fisher-Crew's Return."	<i>Vazie</i>
Address,	Mrs. Alice Freeman Palmer.
Presentation of the Haven Medals.	
Conferring of Diplomas, His Honor, Mayor John S. Tilton.	
Singing of Class Ode.	

THE CLASS OF '98.

CLASSICAL COURSE.

Harry Clifford Clark.	Joseph Foster, Jr.
Louis Lawrence Green.	

LATIN COURSE.

Florence Chandler Bowden.	Lizzie Shillaber Pray.
Sarah Edmunds Bradford.	Bertha Russell.
Magdalene Florence Dondero.	Willena Merle Sampson.
Frances Delta Frost.	Grace Ellen Thompson.
Mary Stearns Heffenger.	Jessie Woods.
Louise Paulina Metz.*	Walter Hiram Lord.

ENGLISH COURSE.

Bertha Fay Hatch.	Arthur Wallace Lang.
Caroline Benton Hatch.	Harry Leslie Mason.
Mabel Blanche Langdon.	Fred William Paterson.

Gertrude Groves Paterson.	Charles Albert Payne.
Hetty Wilson deRochemont.*	Everett LeRoy Phinney.
Ethel Woods Varrell.	Edward Clinton Shaw.
Charles Warren Goodwin.	Charles Levi Shedd.

*Have an average of "E" for the entire course.

REQUIREMENTS FOR ADMISSION TO THE HIGH SCHOOL.

The requirements for admission to the school are a certificate of promotion from one of the public grammar schools, or the successful passing of an examination. This examination will be held some time in June, 1899, the time to be advertised.

Candidates must offer the following subjects :

Arithmetic,
Algebra to Simultaneous Equations,
Book-keeping by single entry,
History of the United States,
Physiology,
Geography, including physical,
English Language,
Writing.

The examination of English will include grammar, spelling, and the reading of standard English literature. Candidates for 1899 will offer "Lady of the Lake," Irving's "Sketch Book," Longfellow's "Evangeline," Whittier's "Snow Bound." An acquaintance with drawing and music as conducted in the grammar schools is recommended, in order that these studies may be successfully prosecuted in course.

Respectfully submitted,

J. C. SIMPSON,
Superintendent of Schools.

REPORT OF THE SUPERVISOR OF PENMANSHIP.

To Mr. J. C. Simpson, Superintendent of Schools :

DEAR SIR:—At your request I submit my annual, but for obvious reasons, unusually brief report in penmanship.

We are still teaching slant writing in the higher grades, and a majority of these classes are making very commendable improvement, considering the extreme limit of time for drill—a condition of things greatly to be deplored, as we once had in those grades forty minutes, semi-weekly, on varied exercises, such as we deem indispensable in producing a free arm and hand movement.

Simply the writing of essays or language work is not a lesson in penmanship any more than singing or playing a piece of music is a lesson in music. It is only putting the lesson into practice. When pupils once begin to acquire this movement, true progress is commenced and good possibilities are promised in the near future. I have always approved of copy-books for public schools, although I have never used them for private classes. They should be used and not abused. After having sufficient practice on sheet paper, pupils should be allowed to write at least a few specimen lines in their books.

With your permission, I will, at some future time, give a more graphic description of this very important subject and the origin and progress of the art of writing from the early ages down to the present time—a subject which might be of interest to some and instructive to many.

Respectfully submitted,

JOHN S. MONTGOMERY.

Supervisor of Penmanship.

REPORT OF THE SUPERVISOR OF MUSIC.

To Mr. J. C. Simpson :

DEAR SIR :—The same time has been given to the various classes under my direction as formerly and from the same system, adding various helps as I deemed advisable—one being breathing exercises and another the use of vowels.

In the lower grades I am using a child's Song and Story Book, making it very enjoyable and interesting for all the class. A story is read by the teacher, after which a song is learned. Thus a two-fold object is gained and the earnestness and enthusiasm shown by the classes in singing their favorite selections is decidedly entertaining.

The teachers are ever ready to do the work expected in the different grades, and I wish to congratulate you on having such an excellent corps of instructors to carry out the many kinds of work taught in our schools at the present day.

Nearly all similar grades are doing the same work—both from the book and the chart. If a class is poor in singing, it is usually poor in other studies. I earnestly request more visits from you, for the pupils enjoy having you come in and it stimulates them to better efforts. I regret exceedingly the limited time at my disposal in the High school, and unless you can arrange to give me a longer period, the singing will not be up to the usual standard this year. I wish to give an advanced work by this class during the coming term, and I hope for your hearty co-operation as formerly.

Music is not an experiment in the public schools, but an ever ready help both in the class and out. The ability to

sing some melody with appropriate words in a pleasant way is of lasting help to any one, and to be able to assist further in part singing is a greater accomplishment.

Thanking you for all past favors, I cheerfully submit this brief report.

Very respectfully,

GEORGE D. WHITTIER,

Director.

REPORT OF SEWING TEACHER.

To Mr. J. C. Simpson, Superintendent of Schools :

DEAR SIR :—I find about one hundred and seventy-five girls enrolled in the sewing classes this year. The beginners in the fourth grade classes were getting along in a very promising manner until the different epidemics caused many absences.

Last February the pupils throughout the city began to work for an exhibition of sewing, which was held in the Whipple school just before the schools closed in June. Over two hundred pieces of work were exhibited, including all kinds of under-clothing, wrappers, muslin dresses, pillow-slips and sheets ; napkins, handkerchiefs, etc., and some very creditable buttonholes. At the instance of the superintendent, the fourth grade class of each building dressed a large doll provided for them, but for which they contributed money to buy clothing ; and every child had the privilege of sewing on some part of the clothes. This plan aroused a great interest in the classes, and the dolls and their wardrobes were centres of much admiration during the exhibition.

In September, when the schools re-opened, by the advice of the superintendent each class presented its respective doll to the Kindergarten class of its building. At the present time, the sixth grade classes are dressing one for the Kindergarten at the Creek. The exhibition was well attended by the parents and friends of the children and won them much credit for the manner in which they had attended to their work in the hours of instruction.

While the parents show a large increase of interest in

the work of their children, it would give me great pleasure if they would sometimes visit the classes during the sewing hour. This would also stimulate the children to renewed interest in their work.

In conclusion, I would say that I think there is as large a per cent. of excellent work this year as there was last among the different classes, and in some of the rooms I find a greater individual improvement than ever before.

Very respectfully,

HARRIET M. REMICK.

REPORT OF THE SUPERVISOR OF DRAWING.

To Mr. J. C. Simpson, Superintendent of Schools :

DEAR SIR:—It gives me pleasure to submit to you the report of the work which has been done in drawing since the opening of schools in September. The work in the Primary, Grammar and High schools is continued on the broad ground of previous years, having always in view the value of drawing in the complete education of the child rather than as mere technical acquirement. Beginning with the recognition of the types underlying all form, using these types to classify the familiar objects in the world about him and later as aids in the study of perspective principles, the pupil studies the facts of form in constructive drawing as shown in working-drawings and patterns; the appearance of form in the representation of objects, the figure, animals, landscape ; gains some knowledge of historic ornament ; and further expresses himself in original design and composition---using as mediums of expression clay, the pencil, brush and color.

Last year the books of the new course were introduced in the fourth, fifth and sixth grades. This year their use has been extended through the ninth grade. Watercolor has been introduced in teaching color in the upper grades.

The entering class at the High school studio this year is large, and it has been found necessary to make three divisions. The course includes drawing in light and shade from grouped objects, principles of perspective, ornament, drawing from natural forms, pose sketching, composition, and original design. The volunteer class meets alternate Wednesday afternoons. One section of this class draws

from still life and the cast in charcoal—later water color will be used—and we are looking forward to out-of-door sketching with the coming of the spring. A second section is studying mechanical drawing. The time which we are able to give to the subject does not permit very advanced work, but we expect to be able to read intelligently and to produce intelligible working-drawings and patterns of common objects and simple machinery details. Much interest is shown in this volunteer class, and its members are doing good work. The training class meets alternate Tuesday afternoons to study principles of drawing and methods of teaching.

I desire to express my thanks to the superintendent and board of instruction and to the teachers for co-operation and assistance.

Respectfully,

LUCY CROSBY BEDLOW.

ROLL OF PERFECT ATTENDANCE FOR 1898.

HIGH SCHOOL.

Sarah E. Bradford,	Harold H. Bennett.
Jennie L. Cox,	Baury deB. Bradford,
Emma G. Hanniford,	Walter L. Brown,
Ethel Jewett,	Asher B. Damon,
Eva B. Lewis,	Charles A. Dondero,
May E. Lydston,	Joseph Foster,
Bernice I. Marks,	Walter H. Garrett,
Annie C. Philbrick,	James P. Griffin,
Agnes E. Regan,	Charles A. Payne,
Amy G. Richardson,	Clarence F. Pearson,
Eva M. H. Sanborn,	Leon E. Stimson,
Jessie Woods,	Ch. Cadwallader Washburn.
Samuel H. Ayers,	

FARRAGUT SCHOOL.

Harvey Hill,	Millard Knight,
Mildred Moulton,	Bessie S. Hubley,
Bertha Quinn,	Arthur B. Clough,
Hattie Waldron,	Volney C. Badger,
Gertrude H. Corey,	Charles H. Kimball.

SPALDING SCHOOL.

John Marden,	Thomas Marden
--------------	---------------

LAFAYETTE SCHOOL.

Bartley Molloy.

FRANKLIN SCHOOL.

Ralph Hersey,	Harold Osgood,
	Irma Osgood.

HAVEN SCHOOL.

Flora Folsom,	Elizabeth Hurley,
Addie M. Laughton,	Abbie L. Hanscom,
Bessie Seavey,	Harry Hanscom,

Chester Brackett,
 William J. Hurley,
 Lyndon A. Jenness,
 Guy H. Brackett,
 Alice B. Gray,

Annie M. Pearson,
 George Odiorne,
 Marion Harmon,
 John Totman.

WHIPPLE SCHOOL.

Henry W. Blaisdell,
 Bertha I. Anderson,
 Laura P. Newton,
 Annie Kingsbury,
 May Kingsbury,
 Pearl Stevens,
 Joseph Wiggin,
 Perley Storer,
 Robert Rich,

Marietta Sides,
 Addie Stevens,
 Ralph Manson,
 Charles Towle,
 Hector Kingsbury,
 Nellie Stringer,
 Grace P. Philbrick,
 Eugenia Duston.

OUTLINE OF WORK—1896-'97.

As the name indicates, this is an outline rather than a full directive course of study. This outline is supplemented by frequent circulars of direction and information, that need not be printed here. Especially is this true of the work in language, nature study, and drawing. Teachers are advised to make their programmes only after careful study of this outline, and are requested to watch their work carefully with a view to the development of the possible correlations between branches of the same group and between different groups. Any doubts should be resolved by consultation with the principal or superintendent.

LANGUAGE.

FIRST YEAR—FIRST HALF.

Conversational exercises—(Miss Badlam's Suggestive Lessons, pp. 7-32.)

Read from blackboard, (script) from Appleton's and Butler's charts, and two primers, Cyr's and Beginners' No. 1.

Copy words and sentences from reading lessons.

Phonic drill daily.

Use as Guide Miss Badlam's Suggestive Lessons in Reading.

SECOND HALF.

Advanced and sight reading from Franklin, Cyr's, Badlam's Normal, and Interstate Primers; and from Cyr's, Badlam's Normal, and Normal Alternate First Readers,

the Interstate Primer Supplement and Little Nature Stories, No. 1.

Memory Gems.

Dictation.

Capitals, periods, question marks.

Phonics daily.

Oral composing and story reproduction—(Suggestive Lessons, page 40).

SECOND YEAR.

Advanced, sight, and silent reading from the First Readers of the First Year and from Cyr's, Franklin, Normal, Normal Alternate, and Barnes Second Readers from Golden Rod Stories and Cooke's Myths.

Memory Gems.

Spelling—(written,) words from all lessons.

Names of letters in the order of the alphabet.

Phonics.

Capitals, punctuation marks.

Letter-writing.

Oral and written composing from the myths and from nature study.

THIRD YEAR.

Advanced, sight, and silent reading from Franklin, Barnes, Stickney's, and Normal Third Readers, from Baldwin's Fairy Tales. Scudder's Folk Stories. Anderson's Tales. The World and Its People and All the Year Round Series.

Memory Gems.

Spelling, oral and written, from all lessons.

Phonics daily.

Miss Hyde's Practical Lessons in Use of English, Book I, Part I, also Suggestive Lessons, Appendix.

Frequent exercises in composing, both oral and written, using as a basis the Fairy Tales and Folk Stories, and the nature observations.

FOURTH YEAR.

Advanced, sight, and silent reading from Franklin Third Reader, *Æsop's Fables*, Pratt's *History Stories*, No. 1, *Home and School*, *Seven Little Sisters*, *Each and All*, Whittier's *Child Life*.

Spelling as before.

Phonics.

Use *Practical Lessons*, Book I, Part II.

Oral and written composing suggested by the *Fables*, *Child Life*, and the nature work.

FIFTH YEAR.

Advanced, sight, and silent reading from Franklin Fourth Reader, Hawthorne's *Wonder Book*, De Foe's *Robinson Crusoe*, Longfellow's *Shorter Poems* (leaflets). *Stories from American History*. Eggleston's *Primary History of United States*. *Old Creek Stories*. Miss Hall's *Own World*. Much silent reading.

Phonics daily.

Memory Gems. Metcalf's *Language exercises*, Part I. Spelling from all lessons, oral and written.

Oral and written composing from literature and nature.

SIXTH YEAR.

Reading—Franklin Fourth Reader. Sight and silent reading daily. Hawthorne's *Grandfather's Chair*. Kingsley's *Water Babies*. Burrough's *Birds and Bees*. Longfellow's *Shorter Poems* and *Hiawatha*. Higginson's *Young Folk's History of United States*.

Phonics daily.

Spelling from all lessons, oral and written.

Declamations once a month.

Structure of sentence, study of subjects and predicates objectively.

Metcalf's *Language Exercises*, Parts II. and III.

Frequent exercises in composing from literature and nature.

SEVENTH YEAR.

Reading—Franklin Fifth Reader. Hawthorne's *Twice Told Tales*, etc. Franklin's *Autobiography*. Whittier's *Snow Bound*, *Among the Hills*, and *Tent on the Beach*. Kingsley's *Greek Heroes*.

Spelling as before.

Declamation once a month.

Grammar—Teach to recognize the parts of speech.

Objective study of sentence.

Practical Lessons in Use of English, Book II. *Our Language*, Part I.

Composing from literature and nature.

EIGHTH YEAR.

Reading—Franklin Fifth Reader. Irving's *Sketch Book*. Longfellow's *Evangeline* and Miles Standish. Cooper's *Pilot*. Spelling, oral and written.

Phonics daily.

Declamation once a month.

Essays twice each term. Four abstracts of books read at home.

Grammar—Elements of sentence; parts of speech; plural and case forms; pronouns; adjectives.

NINTH YEAR.

Read Scott's *Ivanhoe* and *Lady of the Lake*. *Life of Scott*.

Spelling, both oral and written.

Phonics daily.

Declamation once a month.

Composition, as for eighth year.

Grammar—Analysis; verbs.

MATHEMATICS.

FIRST YEAR. FIRST HALF.

Numbers to 5, objectively (without figures). Use Wentworth and Reed as a guide.

SECOND HALF.

Numbers to 10, objectively; teach figures; counting objects to 50; use Wentworth and Reed, also Numbers illustrated.

Roman Numerals to XII.—Teach time by the clock.

SECOND YEAR.

Numbers to 20. Signs of addition, subtraction, multiplication, and division. Halves, fourths, thirds, and sixths. Pint, quart, gallon. U. S. money. Pound, ounce, peck, bushel, building tables. Time by the clock. Roman Notation to XX.

THIRD YEAR. FIRST HALF.

Add, subtract, multiply and divide by 100. Numeration and notation to 1,000. Yard, foot, inch. Teach fifths and eighths. U. S. money. Give much mental work. (First Lessons in Numbers.)

SECOND HALF.

Add, subtract, multiply, and divide (divisors to 12) to 1,000. Roman notation to M. U. S. money. Mental work.

FOURTH YEAR.

Fundamental processes to one million. Tenths and hundredths. Teach the principal weights and measures. Mental arithmetic.

Addition and subtraction of small fractions, objectively. U. S. money. Bills. (Brief Course Arithmetic.)

FIFTH YEAR.

Addition, subtraction, multiplication, and division thoroughly reviewed. Common weights and measures. Simple

fractions to twelfths and thousandths (all the processes), weights and measures. U. S. money. Bills. Mental work. (Brief Course Arithmetic.)

SIXTH YEAR.

Common and decimal fractions (simultaneously). Bills. Factors and multiples.

Weights and measures completed (Measurements, pp. 121, 166, omitting metric system).

SEVENTH YEAR.

Compound numbers. Practical work in long, square, and cubic measures, and in avoirdupois weight.

Percentage (with and without the elements of time.) Method of Interest, p. 187. (Complete Arithmetic.)

Geometrical problems.

EIGHTH YEAR.

Review the work of previous years. Ratio and proportion. Square root.

Geometrical problems.

Book-keeping.

NINTH YEAR.

Algebra.

Review arithmetic. Principles, definitions.

Geometrical problems.

GEOGRAPHY.

FIRST YEAR.

Oral lessons in connection with reading and oral composition.

Occupations of people, beginning with those represented in homes of the people.

Show in how many ways people must work to provide for our daily wants.

Industries of Portsmouth and vicinity.

Coal, where mined, how carried, for what use, kinds of

coal. Shoes, how made, of what, where sent ; leather, its source, preparations, uses, etc. Railroads and vessels as means of transporting supplies. All local industries similarly studied.

Where do the streets about the schoolhouse lead to? What is seen upon them in the pupils' journeys between school and home, and a moderate distance beyond? Location of railroad station, post-office, shops, etc., in the town, taught with aid of blackboard sketches (not maps), or plans, blocks, etc.

Geographical units—hill, valley, plain, brook, pond, river, field, wood, meadow,—taught as met in the reading lessons, and as seen by the pupils in coming to school.

SECOND YEAR.

Oral lessons, with aid of syllabus in White's *Elements of Pedagogy*, pp. 271-278.

Review and extend the range of subjects treated last year. Teach something of geographical facts which are unseen, with the aid of those that are known—mountain, a greater hill ; lake, a greater pond ; sea, still greater, so that objects on other side can not be seen. Where brooks come from ; water in the ground ; rain and snow from clouds ; cloud, a fog-bank high above the earth. Where clouds come from ; water left alone "dries up" into the air ; higher atmosphere, very cold condensation of water there, as of vapor on cold window. Mud washed away by streams ; large valleys cut by them like the small gullies in the road.

Develop in this year's work ideas of position, direction, and distance. East and west (sunrise and sunset), north (pole star), south (sun at noon) ; the compass, its use at sea, etc. Distances ; the inch, foot, 100 feet (measured in school yard) ; mile (over fifty of these lengths). Size of school room. Places just a mile, one-half mile, one-quar-

ter mile, from the schoolhouse. How far each pupil has to walk from home to school.

THIRD YEAR.

Oral lessons. Review and extend work of second year, and complete syllabus to page 283. Common geographical forms of the vicinity, taught with the aid of a few out-of-door exercises, in sections.

Longer distances. What lies beyond the hills? What would be found in going north, north-east, east, etc., from Portsmouth?—towns, streams, etc.

Some notion of countries different from that about Portsmouth, with aid of pictures. The sea; mountains; barren, forest, and field; wet and dry; hot and cold, etc.

Read Stories from World and Its People.

Construction of simple maps—the school room, the school grounds, and the neighboring part of the city.

FOURTH YEAR.

Frye's Primary Geography. Home Geography. The earth. Slopes of the earth. Surface of North and South America and Asia. Geographical Readers.

FIFTH YEAR.

Primary geography. Surface of Europe and Asia. People; heat; wind and rain; plants; animals. Study of United States and New Hampshire. Political geography of the grand divisions.

SIXTH YEAR.

Elementary geography. Study of the earth as a whole. Continental study of Africa and Australia. Political geography. Geographical readers. Map drawing.

SEVENTH YEAR.

Grammar school geography. Study of the earth as a whole. Continental study of North and South America.

Free use of supplementary material. Map drawing and modelling for relief.

EIGHTH YEAR.

Study of the earth as a whole continued. Continental study of Europe and Asia. Special study of New Hampshire and New England. The United States.

NINTH YEAR.

Study of the earth as a whole continued. Continental study of Africa, Australia, and Pacific Islands. Special review of mathematical geography. Commercial geography. Development of special lines of study, introducing original investigation. General review.

HISTORY.

FIRST YEAR.

Oral teaching. Stories of folk-lore, fable, and mythology. Observation of sun, moon, stars, snow, rain, etc., with related myths and stories. Stories of the childhood of noted persons—Washington, Columbus, etc.

SECOND YEAR.

Oral teaching. Work of first year continued. Stories of child-life in former times. The Indians in the time of Columbus. Thanksgiving; the *Mayflower*, and the Pilgrims' first winter.

THIRD YEAR.

Oral teaching. The same work continued. Stories of the lives of eminent men in all ages. Significance of Independence Day, Memorial Day, and other anniversaries.

FOURTH YEAR.

Oral teaching. The same work continued. Stories of the Crusades; the invention of printing and of gunpowder; the early Norse discoveries; Columbus, Raleigh, and other explorers. Local history from Stories of American History.

FIFTH YEAR.

Story of the Greeks. The Heroic Age. The Persian Wars. Later History.

SIXTH YEAR.

Story of the Romans, and their great leaders. Higginson's or Montgomery's Beginners' History of the United States.

SEVENTH YEAR.

Read Dickens' Child's History of England. Discuss events that had a particular bearing on our own history.

EIGHTH YEAR.

American history by topics to 1789.

NINTH YEAR.

American history since 1789. Constitution U. S. State and city government. Read Miss Dawes's "How We are Governed."

NATURE STUDY.

MINERALS, PLANTS, ANIMALS, NATURAL PHENOMENA.

FIRST YEAR.

Natural objects in a broad way as wholes. Conversation and oral language. Talks on weather; rain, dew, clouds, mist, frost, wild flowers, insects, autumn leaves, fruits. Use parts in number work. Buds and birds in the spring.

SECOND YEAR.

Observation of the parts of natural objects; qualities that distinguish these parts; uses to the plant or animal; uses to man. Flowers, trees, fruits, minerals. Collect specimens of quartz, mica, coal, glass, chalk, marble, iron, lead, etc. Qualities, properties, and uses discussed and used in language work.

THIRD YEAR.

Extended observation of the parts of plants and animals with special reference to the arrangement of the parts and their work. Calyx, corolla, stamens, and pistils, of simple flowers. Sketching and mounting in herbaria. Venation of leaves; simple and compound leaves. Dispersion of seeds. Storing of food in seeds. Crickets and beetles. Hibernation and migration. Fishes. Stories of the locality. Properties of air and forms of water.

FOURTH YEAR.

Begin the work of grouping natural objects, thinking of the uses to man and the geographical relations. Review of fruits, stems, twigs, buds. Soils (in geography), gravel, sand, clay. Weather record. Grouping common animals. Vertebrates. Carnivorous and herbivorous animals. Birds, covering, head, legs.

FIFTH YEAR.

Observation of types with special application to geography, adaptations to climate, uses for food, clothing, etc. Careful descriptions and drawings. Insects. Deciduous trees. Germination; evaporation; condensation. The three states of matter. Heat as the cause of change. Temperature and the thermometer. The properties of matter. Building stones, their properties and uses.

SIXTH YEAR.

Erosion and deposition. Deciduous and evergreen trees. Structure of stems; outside and inside growers; cross and longitudinal sections. Metals, kinds, forms, and uses. Air as an agent in combustion; expansion by heat. Air currents and ventilation.

SEVENTH YEAR.

Grasses, cereals, and plant products. Iron ores, coal series. The straight lever; the pulley; sound, vibration, and pitch; cohesion and adhesion.

EIGHTH AND NINTH YEARS.

Careful study of some prominent plant family, its characteristics and adaptations. Lime, rocks, and marbles. Specific gravity, magnetism and the compass. Atmospheric pressure and the siphon. The expansive force of water in freezing. Solution. Oxygen as an agent in combustion and life.

PHYSIOLOGY AND HYGIENE.

FIRST YEAR.

Learn to name and locate parts of body—head, neck, trunk, arms (right and left,) hands, feet; movement, use, and care of each part. Show what can be done with each part. Joints; show how they allow freedom of movement. How parts are adapted to uses; right use. Kindness how shown by hands, feet, lips. Give physical exercises related to lessons. Emphasize cleanliness.

SECOND YEAR.

Continue study of Parts of Body—Position of body compared with that of common animals; arms, wings and fore legs. Parts of Head—Crown, back and sides; hair, combing and brushing; face, complexion and washing the face; ears. Parts of Face—Forehead, temples, cheeks, chin, lips; eyes, eyebrows, lashes, lids; nose, nostrils, bridge; mouth, teeth, tongue; cleaning teeth. Neck—Throat, back of neck; protection. Arms—Movements; joints, shoulders, elbows, wrists. Hand—Back, palm, thumb, fingers; joints, fists, knuckles; forefinger, middle, ring and little fingers; motions, strength and use; nails and their uses; cleanliness, paring and biting. Legs—Motions, proper walking, hip, knee and ankle joints; thigh, shin, calf, foot. Feet—Sole, instep, heel, ball, arch; tight and short shoes; cold and damp feet; cleanliness of feet; neat

shoes and stockings. Bones. Skin—Emphasize cleanliness and neatness, both of person and of clothing.

THIRD YEAR.

Simple lessons on eating, drinking, breathing, sleeping, and clothing, with special reference to hygiene and right habits. Healthful foods and drinks; the flesh-making foods; the heat-giving foods, what they are, why we eat them. Water, why we need it; unwholesome drinks. Why plain and simple food is best; how unwholesome food may hurt us. Temperance in eating and drinking. When to eat. Bad effects of tobacco. Why we breathe. How we breathe. Changes in the air from breathing. Why bad air makes us ill. Exercises in breathing. Use of sleep; hours of rising and retiring. The skin; the sweat tubes (drain pipes of the body.) Need of bathing; how and when to bathe. Clothing; warmth, cleanliness. Care of feet, head and throat to prevent colds.

FOURTH YEAR.

How food is changed to bone, muscle, etc. The blood; the tubes that carry it; the heart as a busy pump. What the blood does for us. Exercise; why we need it; when and how to take it; how it affects the circulation of the blood. Effects of alcohol and tobacco upon the blood vessels and heart. Study of the Senses. The Nose and Smell—Odors; pungent, aromatic, etc. Use of odors; determining good food, pure air, etc. Powers of scent in animals. Pure air and ventilation. The Tongue and Taste—Tongue and saliva; kinds of flavors; chewing gum; tobacco, etc.; hot and strong drinks; thirst, and proper time to drink; habits of eating and table manners. The Senses of Touch and Temperature—Use of fingers and delicacy of touch; rough and smooth, hard and soft, etc.; hot and cold; exercises in estimating temperatures of air and

water ; temperature of the body. Cleanliness. Eye and Sight—Color of eyes ; white, iris, pupil ; change in pupil for light ; bony socket and eyeball ; eyelids, lashes, brows, winking ; tears ; too little and too much light ; reading at twilight ; holding work too near ; cleanliness. Ear and Hearing—Sounds known by the ear, transmitted by the air and by solids ; direction, pitch, and quality of sounds ; shape of the ear, internal ear, cleanliness ; care of ear : cold draughts ; pulling and shouting into the ear ; listening attentively.

FIFTH YEAR.

Review work of primary grade. Careful study of the bony framework of the body. The Skeleton—Skull, spine, ribs, bones of limbs, etc. Structure of bones ; joints, kinds, uses, lubrication. Dislocation of joints ; broken bones. Teeth—Kinds and number ; two sets ; cutting teeth ; enamel, crown, root ; cleansing, how and when ; effects of hot drinks, candy, pickles, biting hard substances, etc. Proper mastication of food.

SIXTH YEAR.

Review the skeleton. Study of the Muscles—Appearance, lean meat ; attachment to bones ; action of muscles—uses of the various muscles ; cultivation of strength ; exercise, proper kinds of play, work and rest. Sprains and bruises. Effect of narcotics and stimulants.

SEVENTH YEAR.

Review the work of grade 6. The internal organs. Digestion—The organs of digestion ; choice of food ; use of teeth and saliva, eating slowly, drinking when eating ; proper kinds of food and drink ; tea, candy, pickles, alcohol, tobacco, etc. ; right habits that influence digestion ; regular and late meals, chewing gum, etc. Circulation—Where the blood is, uses of the blood, structure and uses

of the heart ; the pulse ; arteries, veins ; tight bands, tight clothes, warmth, exercise, wounds. Effect of narcotics and stimulants. Respiration—Pure and impure blood, wind-pipe and lungs, how to breathe ; pure air and how to get it ; draughts ; ventilation ; disinfection ; odors and dust, clean bodies and clothes ; out-of-door exercise.

EIGHTH YEAR.

The Brain and Nervous System—Kind of nerves. Parts of the brain. Work of the brain ; thinking ; right habits of thought, attention, wandering thought ; cultivation of powers of concentrated and sustained thought. Exercises. Recreation and repose. Sleep ; when and how much. Effect of tea, coffee, alcohol, and tobacco on brain and nerves. How to have strong nerves. Review the senses and sense-organs.

NINTH YEAR.

Text Book. Smith's Physiology.

MUSIC.

[PREPARED BY GEORGE D. WHITTIER.]

FIRST YEAR.

Study of scale as a whole, parts in relation to the whole, parts in relation to each other. Sounds from dictation, easy skips or modulator. Rote songs from First Reader.

SECOND YEAR.

A daily drill on modulator in all keys. Singing exercises, using vowels. Learn pictures of keys. Chart No. 1. Learn pitch names on staff. Rote songs reviewed often.

THIRD YEAR.

Begin First Reader. Two part singing from scale ladder. All exercises to be vocalized with different vowels. Chromatic scale.

FOURTH YEAR.

Writing exercises in different keys from dictation. A thorough study of time. Two part singing from Second Reader.

FIFTH YEAR.

Second Reader, part first reviewed, used in connection with part second. Chart No. 2. Different forms of minor scale to be sung from dictation. A thorough drill on chromatic scale, using vowels. Study bass clef last part of Second Reader, and on Chart No. 2.

SIXTH AND SEVENTH YEARS.

Second Chart with Second Reader, using bass clef. Singing from sight in three parts. Introductory Third Reader.

EIGHTH AND NINTH YEARS.

Third Reader, part first. Review Chart No. 2. Sight reading. Third Reader, part second. Four-part songs. A careful review is often given in this grade to establish the object of the Third Reader, viz.: transition. The voices are selected for the tenor at this time. Complete Third Reader. Cecilian Series, III.

OUTLINE OF COURSE IN FORM, COLOR AND DRAWING.

FIRST YEAR.

Solids—Sphere, cube, cylinder, hemisphere, square and right angled triangular prisms.

Studied by touch and sight as wholes, as to surfaces, faces, edges, corners. Expression by modelling, paper folding and cutting, tablet and stick laying, drawing with pencil and brush.

Color—Six primary colors, recognition, matching, relationship. Expression by tablets, sticks, and paper.

SECOND YEAR.

Solids—Ellipsoid, ovoid, equi-triangular prism, cone, square, pyramid, and vase form. Studied by touch and sight as wholes, as to surfaces, faces, edges, and corners.

Expression—Modelling, paper folding and cutting, tablet and stick laying, and drawing. Color as in the first year ; additional work in tints.

OUTLINE OF COURSE IN FORM, COLOR, AND DRAWING.

THIRD AND FOURTH YEARS.

Book III., New Course—Sphere, cube, cylinder, hemisphere, square and right-angled triangular prism. Work in connection with other studies and object drawing from roots, fruits, leaves and common objects. Color—third year—Six primary colors, tints and shades, scaling to hue and tone. Fourth year—Six primaries, six intermediates and their tints, scaling to hue and tone. Historic ornament, borders, rosettes and surface coverings.

FIFTH YEAR.

Book IV.—Ellipsoid, ovoid, triangular prisms. Working drawings of models and simple objects, freehand. Object drawing from fruits, twigs, leaves and seed vessels ; also boxes, books and common objects in simple parallel perspective. Work in connection with language. Color—Six intermediates with tints and shades, scaling to hue and tone. Historic ornament, borders, rosettes and surface coverings.

SIXTH YEAR.

Book V.—Cube, cylinder, cone, square pyramid and vase form. Working drawings of models and simple objects, freehand. Object drawing from flowers and common objects in perspective. Work in connection with language

and nature. Color—Six primaries, six intermediates with two tints and shades, scaling to hue and tone. Historic ornament, borders, rosettes and surface coverings.

SEVENTH YEAR.

Book VI.—Cube, triangular and hexagonal prisms, cone, pyramid, hollow cylinder and vase. Working drawings and pattern. Instrumental work and light and shade introduced. Object drawing from fruits, flowers, leaves and grouped objects. Work in connection with literature and nature. Color—Study of grays. Borders, rosettes and surface coverings. Egyptian and Greek historic ornament.

EIGHTH AND NINTH YEARS.

Book VII.—Working drawings of models and objects. Object drawing from sprays, flowers, and grouped objects. Light and shade: sketching from the pose; landscape, houses, animals. Work in connection with language, history and nature color—Grays; harmonies of color. Byzantine and Romanesque ornament. Borders, rosettes and surface coverings.

COURSE OF STUDY IN HIGH SCHOOL.

GENERAL COURSE.

FIRST YEAR.

Required.—Algebra 4, Ancient History and Botany 4, English 4.

Elective.—Book-keeping 4, Elementary Science 4, Penmanship 2.

SECOND YEAR.

Required.—Geometry 4, English 4, Physics 4.

Elective.—Book-keeping 4, French 4, Botany and English History 4.

THIRD YEAR.

Required.—English 4.

Elective.—Chemistry 4, French 4, German 4, Stenography 4, History (Mediaval, Modern, United States) 4, Commercial Arithmetic 4.

FOURTH YEAR.

Required.—English 4.

Elective.—French 4, German 4, Stenography 4, Physiography 4, Solid Geometry and Trigonometry 4, Political Economy and Civics 4.

LATIN COURSE.

FIRST YEAR.

Required.—Latin 5, Algebra 4, Ancient History and Botany 4, English 4.

SECOND YEAR.

Required.—English 4, Geometry 4, Cæsar and Prose Composition 5.

Elective.—Botany and English History 4, Physics 4, French 4.

THIRD YEAR.

Required.—English 4, Cicero and Prose Composition 5.

Elective.—Chemistry 4, Mediaval History and Modern History 4, French 4, German 4.

FOURTH YEAR.

Required.—English 4, Virgil and Prose Composition 5.

Elective.—Physiography 4, Review Mathematics 3, French 4, German 4.

CLASSICAL COURSE.

FIRST YEAR.

Required.—Latin 5, Algebra 4, Ancient History and Botany 4, English 4.

SECOND YEAR.

Required.—Greek 5, Cæsar and Prose Composition 5, Geometry 4, English 4.

THIRD YEAR.

Required.—Anabasis, Hellenica, and Prose Composition 5, Cicero and Prose Composition 5, English 3.

Elective.—French 4, German 4, Review Mathematics 4.

FOURTH YEAR.

Required.—Homer, Herodotus and Prose Composition 5, Virgil and Prose Composition 5, English 3.

Elective.—Physiography 4, Physics 4, French 4, German 4.

Figures indicate the number of periods each week.

A minimum of 16 periods is required.

Elections are not to be changed.

“English” comprises spelling, grammar, essays, rhetoricals and literature.

“Trigonometry” and “Mathematics Reviewed” are intended for those who desire them in preparation for college.

LIST OF TEACHERS, JANUARY, 1899

HIGH SCHOOL.

Robert M. Brown	3 Miller Ave.
George A. Swertfager	25 Richards Ave.
Frances A. Mathes	1 Rock St.
Emma J. W. Magraw	23 Richards Ave.
Olive A. Akerman	18 Highland St.
May G. Averitt	7 High St.
Mabel Manson	8 High St.
W. J. Lewis	Franklin Block.

FARRAGUT SCHOOL.

Nellie F. Pierce	37 Cabot St.
Blanche Lamprey	Newington Road
Annie L. Morrison	46 Union St.
Alice J. Newton	22 Dennett St.
Emma F. Riley	2 Court St.
Edith G. Brewster	21 Islington St.
Ada D. Andrews	88 State St.

WHIPPLE SCHOOL.

John L. Mitchell	17 Summer St.
Harriet A. Seavey	6 Prospect St.
Dorothy M. Coleman	Newington.
Ida E. Shackley	70 Islington St.
Ellen A. Newton	22 Dennett St.
Mabel Farrington	31 Cabot St.
Mary E. Prescott	11 Middle St.
Lena A. Stover	Kittery.

CABOT-STREET SCHOOL.

Maria B. Jarvis	60 Islington St.
Elizabeth E. McDonough	97 State St.

Bertha Colburn	50 Union St.
Martha E. Tredick	88 State St.

HAVEN SCHOOL.

Alvah H. M. Curtis	17 Summer St.
Margaret J. Laughton	1 Brewster St.
Matilda F. Rothwell	15 South St.
Martha Farrington	31 Cabot St.
Grace M. Kennison	20 Marcy St.
Bertha Martin	3 Newcastle Av.
Anna G. Abbott	34 Hanover St.

FRANKLIN SCHOOL.

Carrie W. Knox	1 Dennett St.
Grace T. Smith	139 State St.

TRAINING SCHOOL.

Florence A. Ham	70 Maplewo'd Av.
Josephine W. Page	15 Maplewo'd Av.

Senior Class.

May F. Dickerson	Lafayette Road.
----------------------------	-----------------

Junior Class.

Aurelia M. Jones	2 Lovell St.
Marion Taylor	147 State St.
Minnie M. Woods	70 Pleasant St.

WOODBURY SCHOOL.

Annie L. Lamprey	Newington Road.
----------------------------	-----------------

SPALDING SCHOOL.

Ninette D. Hayes	6½ Highland St.
Anna G. Rand	42 Middle St.

LAFAYETTE SCHOOL.

Annie L. McDonough	97 State St.
------------------------------	--------------

WRITING.

John S. Montgomery	10 Cabot St.
------------------------------	--------------

MUSIC.

George D. Whittier	.	.	.	3 Tanner St.
--------------------	---	---	---	--------------

DRAWING.

Lucy C. Bedlow	.	.	.	34 Hanover St.
----------------	---	---	---	----------------

SEWING.

Harriet M. Remick	.	.	.	59 Union St.
-------------------	---	---	---	--------------
